

## Mental Mathematics - Set C - Test 3

***I am going to start with the practice question. I will then ask you 20 questions for the test. You will see a box on your answer sheet to write your answer. For some questions there will be some information on the sheet to help you.***

***I will read each question twice, and then you will have some time to work out the answer and write it down.***

***Here is the Practice Question. You will have 5 seconds to complete this question.***

<b>P</b>	<b>What are the two numbers shown on your answer sheet added together?</b>
----------	--

***Put your pens or pencils down. The answer is ...3..... Are there any questions?***

***Now we are ready to start the test. For the first group of questions you will have 5 seconds to work out each answer and write it down.***

Answer    Question    Question  
                  Number

365	1	What number is shown in the abacus?
Triangle	2	Write down the name of the shape. Spelling is important
27	3	Sophie has fourteen felt tip pens in her pencil case. She finds thirteen more in her draw. How many does she have now?
17	4	Listen to this number pattern, 1, 5, 9, and 13. What is the next number in the number pattern?
16 and 24	5	Look at the numbers on you answer sheet. Circle the numbers in the four times table.

***For the next group of questions you will have 10 seconds to work out each answer and write it down.***

Answer    Question    Question  
                  Number

9	6	What is sixteen minus seven?
18	7	Caroline has three bags of sweets. In each bag she has six sweets. How many sweets does Caroline have?
3	8	Raul has five dogs. He has fifteen dog biscuits that he wants to share equally amongst his three dogs. How many dog biscuits does each dog get?
180	9	How many degrees are in a triangle?
£1.60	10	How much money is shown?
4	11	Look at the calendar shown. How many Thursdays are there in September?

## Mental Mathematics - Set C - Test 3

2.30 (am/pm) or half past 2	12	What time did the clock show 30 minutes ago?
>	13	Write in the correct symbol to make the sum correct.

**For the next group of questions you will have 15 seconds to work out each answer and write it down.**

Answer	Question Number	Question
14	14	What is half of twenty eight?
5	15	What value does the symbol need to be to make the sum correct?
2004	16	If Victoria was 8 years old in 1997, what year does she celebrate her 15th birthday?
14	17	What is the area of the shape shown?
10	18	What is seven plus five takeaway six plus four?
52	19	How many weeks are there in a year?
1	20	If <b>a</b> equals nine and <b>b</b> equals eight, what is the answer to <b>a</b> minus <b>b</b> ?

**'Put your pens down. The test is over.'**
